

INSTALLATION INSTRUCTIONS

Thank you!

Thank you for choosing Groove Grids LED Housing for your collection.

Please follow the instructions on this page to ensure long and effective use.

An installation video is also available on YouTube – Scan the QR code to view now.

1. Ensure surfaces are clean, sound, and dry.
2. Lay the pieces out on a flat surface and group them into rows.
3. Some example configurations are shown below.

	LEFT END	RIGHT END	INSIDE LEFT	INSIDE RIGHT	SEQUENCE
2 Cubes (per row)	1	1	1	1	LE > IL > IR > RE (Figure 1.)
4 Cubes (per row)	1	1	3	3	LE > IL > IR > IL > IR > IR > RE (Figure 2.)

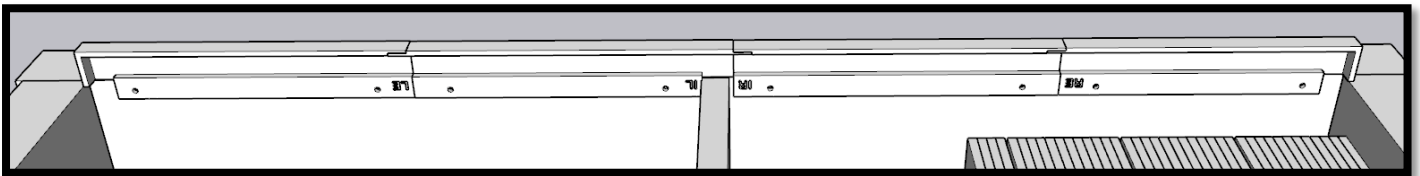

Figure 1 (above).

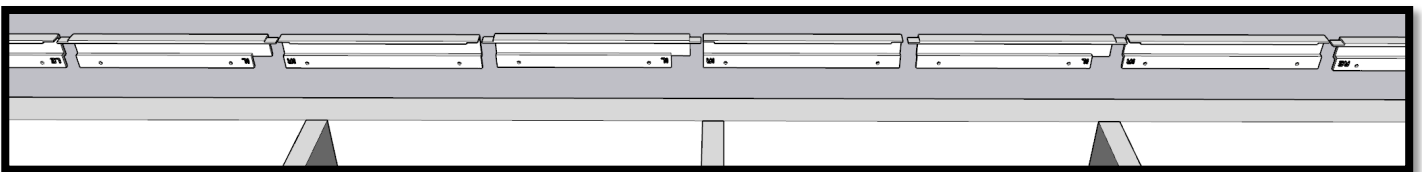

Figure 2 (above).

4. Begin each row using an INSIDE LEFT (IL) piece, working outward towards the edges thereafter.
5. Offer up the piece, mark the two holes, and pre-drill using a suitable bit for the 3mm x 16mm screws provided.
6. Tighten the screws in place by hand. **Avoid overtightening.**
7. **Warning:** Failure to follow steps 5 and 6 could cause damage to your KALLAX and Groove Grids product.

Kit contents:

Left Edge Pieces

Inside Left Pieces

Right Edge Pieces

Inside Right Pieces

3x16mm TX10 Screws
